

KBD1010

Overview

The Touchstone Technology KBD1010 is a waterproof keyboard designed for use in medical and industrial applications. Unlike other waterproof keyboards, the KBD1010 was designed with a standard 101 key personal layout. The KBD1010 has a similar feel to traditional desktop keyboards, however it can be completely submerged in water or other cleaning fluids.

Features

- Full travel keys allow for rapid typing
- Standard 101 key personal computer layout
- Fully waterproof
- Compatible with all PC and Mac computers
- Ergonomic design
- Easily cleaned

Applications

- Medical data entry
